Subject: Diamond Alkali - LPRSA NRRB Schedule

Bill,

You may have heard that EPA had a tentative schedule for the National Remedy Review Board ("NRRB") to meet in mid-October to consider the results of the Lower Passaic River Study Area focused feasibility study and the remedial alternatives for the lower 8 miles of the River. If so, this is to let you know that this tentative schedule is no longer in place. The NRRB meeting is now expected to occur later in 2012. EPA will be in touch with you again about the NRRB meeting when we have more information.

Regards,

-Sarah
